Please rate our meeting facility	72%	28%	-	-	-

What IT Workshop topics (and speakers) would you like presented next year?

More on storage issues...More discussion and/or advice on handling Email...Lets have Microsoft present a session on SharePoint ... IT Cyber Security ... Live Conferencing Server (LCS) ... Would like a session to address major system installs and system integration ... Discussion on strategic planning and the processes involved with planning ... End-User reporting options ... Office 2007 ... Vista operating software ... SharePoint roll outs ...

Please comment on the “Economic Value” of participating and continuing this NCEA event:

It is always an excellent exchange of ideas and thoughts on how other utilities are dealing with the world of IT. This years' speakers and topics were very pertinent for me, all things our utility is facing. Excellent workshop! ... This was a great workshop, the best event that I have attended this year. ... NCEA is a bargain and very affordable, especially for the great networking and peer development value. ... Excellent! ... The contacts I make at NCEA meetings is very valuable – it is too bad all utilities were not present during the roundtable, that is a valuable part of this workshop.

2008 NCEA IT Workshop
September 8 & 9, 2008 -- Fergus Falls, MN or Fargo, ND
Host: Steve Rau & Otter Tail Power
